

## KEY BENEFITS

### Accurately report AC issues

You can send a diagnostics report and specific notes directly to the vehicle owners, making clear the repair issues and winning loyal customers.

### Improve Car Repair Shop Efficiency

The hassle of back-and-forth calls to explain the AC issue is eliminated. Get fast approval and improve your automotive shop efficiency.

### Increase Profits

You earn the customer's trust in minutes and sell profitable AC repairs quickly and easily. Get precise with the diagnosis and Fix customers' cars at the First Visit.

### Give customers peace of mind

You provide reliable and accurate AC diagnostics to vehicle owners. Build trust through transparency and get 5-star reviews.

## TECHNOLOGY

AC diagnostic sensor features the latest in technological developments. The **Bluetooth 5.0** IoT sensor uses low-energy components and sports an automatic power-saving feature which gives up to **5-year battery life**.

Smart IoT technology takes into account the outside temperature and humidity, and provides you with an accurate **AC diagnostics report**.

The device itself is compatible with 2 types of refrigerant, **R-134a** and **R-1234yf**, and works with all types of vents.

**Android** and **iOS** versions of the app are available on Google Play and the iOS store.
